Hours of Service for Entrance and Clearance

Inspection services for the entrance/ arrival of aircraft at Skagit Regional Airport are generally available 24 hours per day, 7 days per week in accordance with the port's permission to land procedures.

Commercial aircraft operators departing the U.S. must obtain an outbound clearance by contacting CBP directly.

Permission to Land Procedures

Pilots must secure permission to land by contacting the Port of Skagit prior to departure from the foreign port or place.

The Port of Skagit will submit a request for a specific window during which a flight will arrive. If CBP approves the request, CBP will have an officer available during that time frame to inspect the aircraft.

If your ETA changes to outside of that time frame, previously granted permission(s) are invalid and you must contact CBP to re-secure permission to land.

Inspection Process

- Aircraft should park in the designated spot outside the CBP inspectional office.
- A CBP Officer will meet the aircraft on the tarmac to begin the inspection.
- Be prepared to present passports, visas, pilot's license, medical certificate, aircraft registration, and user fee decal.

Special Procedures/Miscellaneous

- Services are provided through a Reimbursable Services Program agreement with the Port of Skagit.
- Pilots will not be able to obtain services unless they submit a request through the Port of Skagit.
- Services are usually available at any time but MUST be requested by the Port of Skagit.
